## Milpitas Hacks X Regent Hacks

[Milpitas Hacks](#) X [Regent Hacks](#)

---

**Bay Hacks: Inspiring meaningful projects that have tangible impacts on our community**

Bay Hacks is one of the first hackathons which has collaborated with multiple hackathons across the Bay Area! The Bay Area is prominently known as a hub for passionate programmers and a large, high tech industry. Therefore, we took the initiative to inspire the young, like-minded coders by spreading our passion to the Bay Area by providing students with unique

opportunities at this hackathon. Unlike traditional high school hackathons, we are encouraging middle schoolers to participate in this hackathon so that they can get a taste of a competitive coding competition. Participants will be asked to apply their creativity to create unique, groundbreaking solutions in accordance to the multiple tracks which will be provided on the day of. Additionally, we will also provide people with further opportunities at this hackathon, so they can use this experience to extend their programming and problem-solving journeys. To provide this opportunity, we will organize many panels of nonprofits and startups owned by high school and college students. Through these panels, our participants can find unique internship opportunities to further their passion for programming and help expand their network. This way, students can not only compete for remarkable prizes, but also can find unique and exciting opportunities. This year we are aiming to have over 250 participants at Bay Hacks, and we can only do this with your support. Please help us make this hackathon possible by sponsoring us.

**Bay Hacks is not the place where programming journeys end; in fact, it is the place where programming journeys begin.**

### **Event Details:**

- Bay Hacks is prepared to host around 200-450 high school students, accommodating any level of coding experience!
- The event will take place at the Indian Community Center in Milpitas on September 2nd, 2024.

### **Funding Allocation:**

- Sponsorship funds will cover venue costs, food, merch, prizes, emergency expenses, and other essentials to ensure a successful hackathon.

### **How can you help?**

- You can donate money directly to Bay Hacks through an online donation link or a check.
  - You can help sponsor food and prizes as we will be serving a total of two meals, snacks, and beverages.
  - You can send tech professionals to mentor and judge
-
